

John B. Stetson Middle School

3200 B. St.
Philadelphia PA 19134

March 6, 2026

Dear Stetson Middle School Families,

This letter responds to a recent social media post raising concerns about the condition of our building.

In response to the concerns raised, the School District of Philadelphia's Operations Division conducted a comprehensive assessment of the school's heating and water infrastructure, along with a review of pest management conditions. The evaluation confirmed that all building systems are functioning as intended and that pest management protocols are actively in place and operating effectively.

In the event of an emergency, whether confirmed or reported, the Operations Division immediately implements established protocols to assess the situation, verify the circumstances, and take appropriate action to ensure the safety and security of the entire school community.

The School District of Philadelphia remains committed to maintaining safe and supportive learning environments for all students and staff. The situation was addressed in accordance with established District protocols, and we appreciate the cooperation and flexibility demonstrated by our school community throughout the day.

If you have anything to report, questions, or concerns, please call the main office at (215) 400 - 9150.
